

TWO EVENTS *with* JEAN-MARTIN FORTIER

Learn SIX FIGURE FARMING FOR SMALL LOTS and BIG YIELDS, SMALL LOTS from Jean-Martin Fortier, one of Canada's rock star young farmers (and our very own Eliot Coleman 2.0). Jean-Martin marries smart, intensive farming with solid business sense, all while finding time to enjoy life. In these workshops and his new book, *The Market Gardener*, Jean-Martin Fortier demonstrates how adopting intensive methods of production can lead to optimal cropping systems. He will discuss how to —set up a micro-farm & design biologically intensive cropping systems with negligible capital outlay —farm without a tractor & minimize fossil fuel inputs through the best hand tools, machinery, & minimum tillage —grow mixed vegetables systematically with attention to best practices for weed and pest management

SIX FIGURE FARMING *for* SMALL LOTS
